# MAX24 Task

Built for Strength, Designed for 24hr Comfort

The ultimate Heavy-Duty seating solution is here, engineered to support up to 180kg without compromising on style or agility. Equipped with an advanced HD Synchro mechanism, the chair mirrors the body's natural pivot points

This ergonomic chair redefines heavy-duty seating by merging industrial-strength durability with flexibility. The perfectly curved backrest sits uniquely upright to capture your natural spinal curvature immediately. Whether you are typing intensely or leaning back to take a call, your spine remains perfectly aligned in both upright and reclining positions.
